SUMMARY

Experienced Frontend Developer with 4 years of hands-on experience in React, building responsive and scalable user interfaces. Skilled in full-stack development using Node.js frameworks like Express and NestJS. Proven ability to develop and maintain modern web applications, with solid experience integrating AI-powered features and LLMs (Large Language Models) into real-world projects. Passionate about clean code, performance optimization, and staying current with emerging technologies. Currently at B1–B2 level in German (Deutsch) and actively improving, open to relocation within Germany.

SKILLS

- **Strong foundation in JavaScript & TypeScript:** leveraging various frameworks and libraries
- **React.js:** Proficient in creating interactive, user-friendly interfaces with React, JSX, and Redux.
- **Next.js:** Skilled in building performant, server-rendered applications using Next.js.
- **Performance Optimization:** Expertise in optimizing web performance.
- **Full-Stack:** Ability to craft full stack application using Node js, Express js or Nest.js with MongoDB
- **Adaptability & Innovation:** Continuously updated with the latest trends and technologies

Experience

Sr Front end Developer Trevi 2024 August / Current

Built a robust admin dashboard using React.js and the Refine framework, enhancing data management and user experience. Streamlined advanced client-side functionalities and delivered scalable solutions tailored to business needs.

Sr Front end Developer OneCard 2022 September / 2024 September

- **Bitaqaty Web** <https://www.bitaqaty.com>

Crafted a comprehensive Next.js project from inception, seamlessly integrating third-party analytics and multi-region functionality. Leveraged SSR to ensure a responsive, feature-rich experience across diverse user needs and regions.

- **OneCard Web** <https://www.onecard.com>

Developed an expansive e-commerce platform on Next.js, integrating advanced third-party analytics and multi-region Adaptability. Utilized SSR for a personalized, responsive shopping experience tailored to diverse markets and user behaviors.

- **OneCard App** [GooglePlay](#) [AppStore](#)

Contributed to a React Native mobile app, facilitating multiple releases to meet evolving business requirements.

Supported the project, ensuring smooth operations and successful deployments through various app versions

React Js Developer Mivors 2022 March / 2022 September

- **IcloudReady** <https://www.icloud-ready.com/>

Led the user interface and UI development for a dynamic real estate platform using Gatsby and Ant Design.

Leveraged Gatsby's framework and Ant Design's components to craft a visually engaging and intuitive interface, enhancing user experiences in the real estate domain

Freelance Projects

- <https://www.icard.com.sa/>

I'm supporting a project using Next.js for the front-end and Node.js with Express for the back-end, with MongoDB for data storage. Additionally, I'm assisting with the mobile app development using React Native for both iOS and Android.

- <https://www.arabgiftcard.com/>

I contributed to building this project using React.js for the front-end, Node.js with Express for the back-end, and MongoDB for data storage.
